To Whom It May Concern

The Add-A-Bathroom modular bathroom system is supplied with sufficient sealant and the appropriate finishing liquid to complete the sealing of the joins as per the supplied instructions, or has been sealed to this standard at the factory, depending on your order requirements.

Only the sealant supplied or an equivalent that complies with AS3740 should be used and this must be applied as per the instructions provided by Add-A-Bathroom Pty Ltd.

Add-A-Bathroom Pty Ltd uses the Techniseal A silicon sealant supplied by B&N Products Pty Ltd which complies with AS3740. For full technical details on this product or for an MSDS for Techniseal please visit their web site at [www.bn-products.com.au](http://www.bn-products.com.au) for more information.
